Power to Your Rice Mill

M/S Shakti Engineering Works is very happy to serve you for more than 20 glorious years with its innovative engineering creativity and technical ideas. Our team has a rich experience of designing and manufacturing your so expected pre-milling section in your rice mill to supply you a complete tension free product. We all know that rice is the most important and largest selling food all over the India as well as Bangladesh, Myanmar, Srilanka, Pakistan etc. But a large amount of paddy is being cultivated in our India. And very hopefully our India is a brand name as a rice exporter for all over the world. Truly this is for its quality. And here, the quality of rice depends on its size, its colour, its shape and its protein. However it is so easy to say but making the rice from paddy is not so. We are also very happy to take a part of this. Shakti Engineering Works is not a name that manufacturing the rice mill machines but it's a hub of ultramodern technologies for rice mills. But the main thing can't be forgotten that only you can give us the opportunity to discover a better machine for your rice mill. Only your raised helping hand can help us to serve you better to best.

Why Choose Us

- Best Infrastructure ✓
- Quick & Efficient Responses ✓
- Team of Expert Engineers ✓
- Customer First Approach ✓
- Best Price ✓

WHEN IT'S ABOUT RICE MILL MACHINERIES

Our newly invented plants are such an improved quality that it will give you a fully automated and complete hassle-free production.

Our Plants & Products

✓ Complete Paddy Dryer Plant & Equipment

- i) ½ Ton per batch
- ii) 6 Ton per batch
- iii) 9 Ton per batch
- iv) 12 Ton per batch
- v) 18 Ton per batch
- vi) 24 Ton per batch
- vii) 32 Ton per batch
- viii) 40 Ton per batch
- ix) 50 Ton per batch
- x) 56 Ton per batch

Steam Type
&
Cyclone Furnace Type

✓ Complete Paddy Pressure / Parboiling Plant and Equipment

- i) Single steam / half steam for basmati rice.
- ii) Single stage full steam for parboiled rice.
- iii) Two stage and three stage continuous flow for parboiled rice.
- iv) Single stage full pressure plant for puffed rice.
- v) Dual type for parboiled rice and puffed rice both in single plant.
- vi) White puffed rice plant.
- vii) Single tank circulation type by mono-block pump.

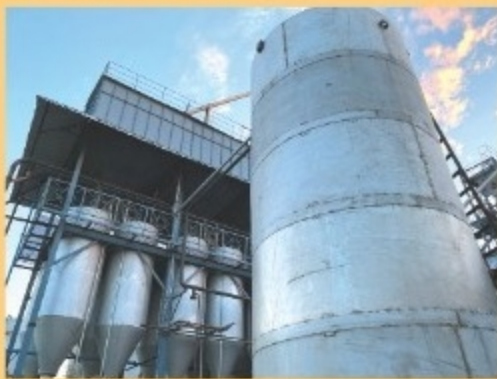

Grain Storage Silo

- i) Box type silo.
- ii) Cylindrical silo.
- iii) Baffle and coul type silo.

Water Tank

- i) Cold water tank for any purpose use.
- ii) Hot water tank for parboiling use.
(Heating by steam with strainer pipe)

Chimney

Straight
Chimney

Self Mounted
Chimney

Blower

- i) Centrifugal blower.
- ii) Dust collector blower.
- iii) Axial blower.

- iv) ID fan / FD fan.
- v) High pressure blower.
- vi) Double way suction.

Paddy Pre-Cleaner

Aspirator Chalna

Aspirator

Crown Chalna

Conveyor

Conveyor Accessories

Belt Conveyor

Tube Conveyor

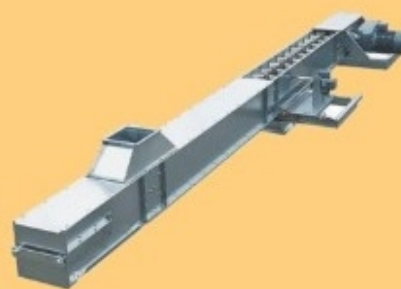

Screw Conveyor
